

**WE DON'T STAY SILENT,
WE DON'T ACT INDIFFERENT
WE DON'T LEAVE ANY WOMAN ALONE BEHIND CLOSED DOORS**

On Tuesday, April 21st, a woman managed to escape from an apartment situated on Skiathou street in Patissia, where she was imprisoned and was being abused, drugged and forced into prostitution by a man who had taken her identity card.

In this rotten society we live in, where the dominance of men over women is a fact, unfortunately such incidents confirm in the worst way the reality we experience every day. The reality that teaches us that every man can buy and sell our bodies, can abuse them, slaughter them and rape them. Incidents like these create fear and remind us of how much exposed we are and how difficult it is to believe and trust any man that we meet.

The fact that the media characterized the man as "Don Juan" and the woman as a "slave of sex" proves once again that the media which build and spread the rape culture, are the same media which cover up and whitewash their rapists. This woman, like many other women, was raped again and again not only by this man and his clients. She was raped by the media, too.

We have rage against every rapist, against every bastard who consents, against every sexist who applauds. Against every man who considers that he owns our body.

In this patriarchal society that wants women to be alone and scared, we choose to resist. We don't leave any woman alone, we stand by each other and raise our voices.

**WE HAVE RAGE AGAINST ALL RAPISTS
WE DON'T STAY SILENT
WE DON'T ACT INDIFFERENT
WE STAND AGAINST RAPE CULTURE**
